I'm Aditya Soni, a passionate BCA student from Rungta College, Bhilai (3rd year) and a self-taught Frontend Developer based in Bilaspur, C.G. I love building clean, responsive, and user-friendly websites using technologies like HTML, CSS, JavaScript, and React. With a creative eye and a strong focus on user experience, I've developed several real-world projects — from business websites to personal portfolios. I'm also exploring UI/UX design and constantly learning to grow as a developer in the evolving tech world.
